

The M&J K-series

You think razor blades are sharp?
Then meet the M&J K-series of pre-shredders

"They will keep you
running no matter
what you throw
at them!"

You will get the renowned M&J Recycling technology and quality, that's in a class of its own.

The **M&J K160** and **M&J K210** are designed and optimised to provide a competitive low cost/tonne for production sites that have capacity requirements of between **5 and 45 tonnes/hour**.

With superior performance, unbeatable uptime and easy maintenance, they are the obvious choice for those who prioritise performance with less hassle.

They will keep you running no matter what you throw at them!

SUPERIOR PERFORMANCE

- The K-series apply M&J Recycling's outstanding technology and quality – tested and optimised over decades
- Minimised bridge-building and easier grappling of waste material due to patented knife design
- Unique bi-directional shredding system – both synchronous and asynchronous – shreds most types of waste

INTELLECTUAL
PATENTED
PROPERTY

EASY MAINTENANCE & LOW SERVICE COSTS

- The M&J K-series have a robust and proven construction that is easy to access, making maintenance fast and service costs low
- No wear from materials falling through the open cutting table

POWERFUL VERSATILITY

- The pre-shredders' unique versatility makes it possible to shred almost all waste types – even challenging materials – and cater to changes in waste streams
- Consider stepping up to M&J K210 for additional applications such as bale opening, more usages and higher capacity

M&J K160

M&J K210

	M&J K160	M&J K210
Gran size		
5 knives	90% less than 400 mm	N/A
6 knives	90% less than 300 mm	N/A
7 knives	90% less than 200 mm	90% less than 400 mm
8 knives	90% less than 125 mm	90% less than 300 mm
9 knives	N/A	90% less than 200 mm
11 knives	N/A	90% less than 125 mm
Capacity per hour		
Household waste	Up to 35 ton	Up to 45 ton
Demolition wood	Up to 25 ton	Up to 40 ton
Industrial waste	Up to 15 ton	7 Up to 20 ton
Bulky waste	Up to 20 ton	Up to 25 ton

You also get this with the M&J K-series ...

Higher Capacity

- A wide range of knife types is available, making it easy to match your specific requirements and waste types to maximise capacity
- Ability to attack the waste from different angles maximises efficiency; this is due to the unique bi-directional shredding system – both synchronous and asynchronous

Unbeatable Uptime

- Open cutting table allows stones and other debris (depending upon size) to pass through without causing blockages and is less sensitive to non-shreddables, meaning fewer stops and less downtime
- Improved shaft shape reduces the risk of wrapping around the shafts, resulting in less bridging, stops and cleaning time
- Unique bi-directional shredding system – both synchronous and asynchronous – also shreds challenging materials, meaning fewer stops and less downtime

With M&J Recycling – you are in Safe Hands

- With M&J Recycling's well-proven technology, quality, and global network of
- Service specialists and local service partners available 24/7/365 – you can sleep well at night ...

GET READY FOR

- Less complexity
- Less maintenance
- Less pre-sorting
- Less running costs

YOU'LL GET

- Maximum quality
- Maximum performance
- Maximum uptime
- Maximum flexibility
